

Technical Datasheet

Trade name : Clean AD(hesive) 200
Reviewed: 19.12.2018
Date of print : 08.08.2019

Page : 1 of 1

Description

Clean AD(hesive) 200 is a label-free cleaner for cleaning surfaces such as metals and plastics prior to gluing. Cleaning and adhesion reinforcement take place in one operation. No more harmful primers are necessary, thus no suction is needed, as well as the health hazard is reduced.

Chemical characterisation

Mixture of different solvents.

Classification according to Regulation (EC) No.1272/2008 [CLP]

-

Transport information

ADR : -

Water hazard class (Classification according to AwSV)

Water hazard class : 1 (hazardous to water)

Labelling for contents according to regulation (EC) No. 648/2004

-

Safety equipment

Eye / Face protection:	suitable safety goggles acc. EN 166	In case of splash
Hand protection:	suitable gloves type EN 374	In case of possible or enduring skin contact
Respiratory protection:	Combination filtering device DIN EN 14387	In case of exceeding exposure limit values

Application

Clean AD(hesive) 200 is ready to use, simply spray on the surface in a fine spray. Wipe with an absorbent cloth to leave a fine film on the surface. Then apply the adhesive tape. The exposure time depends on the adhesive tape (please observe the manufacturer's instructions).

Remove any residues of the Clean AD(hesive) 200 after the time of application. Simply wipe with a cloth, if necessary, treat with FT 100.

Technical data

Appearance :	liquid	Solidifying temperature :	not determined
Colour :	colourless	Ignition temperature :	not determined
Odour :	characteristic	Upper explosion limit :	not determined
Boiling temperature :	ca. 115 °C	pH-value :	not applicable
Flash point :	118 °C	VOC (CH) :	19 Wt %
Lower explosion limit :	not determined		
Density (20 °C) :	ca. 0,9 g/cm ³		
VOC (EG) :	19 Wt %		

Storage

Keep container tightly closed. Keep/store only in original container. Protect against sub-zero temperatures. Optimized storage temperature is between 2 °C up to 35 °C. The product is storable in closed original packaging for at least 12 months. Starting date is the date of production.

Storage class (acc. TRGS 510): 10

Disposal advices

The waste codes are recommendations based on the schedule use of this product. Owing to the user's specific conditions for use and disposal, other waste codes may be allocated under certain circumstances.

Waste code acc. EWC/AVV for unused product	Waste code acc. EWC/AVV for packaging
20 01 30 detergents other than those mentioned 20 01 29.	15 01 02 plastic packaging

The waste code for used product depends on the kind of contaminations that were washed from spare parts and may be different to those stated here.

Contaminated packaging must be emptied of all residues and, following appropriate cleaning, may be sent to a recycling plant. Uncleaned packaging must be disposed of in the same manner as the medium.
